

Photography Workshops

Greensand Country Landscape Partnership is offering a programme of **FREE** workshops in photography to help celebrate Greensand Country.

Overview

The workshops are led by Photography expert Phil Richardson, whose work you can see more of here <https://flic.kr/s/aHsmTQ5DRK>

The workshops cover topics such as iPhone and mobile phone photography, Outdoor Photography for beginners, Creative Outdoor photography and Natural Lighting, Filters and Long Exposure Photography. There will also be Q&A sessions, along with evening workshops in Post Production.

You can book in for one or all sessions and we would love to see you there!

The workshops will take place over Zoom and they begin this **Saturday 20th March 2021**.

For more information and to book your place please visit
<https://www.greensandcountry.com/experience?interestedin=whats-on>

The age range for these workshops is 14+

Further Detail

Sat 20th March 2021, 0930-1030, iPhone and Phone Photography

Learn to unlock your phones creative abilities. Simple composition and lighting skills, control exposure and focusing, with an introduction in using the iPhones photo app and editing on Instagram.

Sat 20th March 2021, 1100-1230, Outdoor photography for Beginners

Get the best out of your camera, learning a few tips and tricks to get you started. Understand how to get blurry backgrounds, prevent camera shake with sharp images and create correctly exposed photos. The ISO and WB settings will be explained and you'll practice a few basic compositional skills.

Sat 20th March 2021, 1330-1500, Creative Outdoor photography and Natural Lighting

An exercise and presentation based workshop for enthusiasts which will cover the equipment needed to photograph birds, deer, insects, plants, landscapes and how best to capture old ruins and churches, heathland and forests. Learn how to get the best from natural lighting, using cloudy conditions effectively, the position of the sun and different times of day to help make the subject stand out.

Sat 20th March 2021 1530-1700, Filters and Long Exposure Photography

Acquire new skills using Graduated ND filters and polarisers to enhance landscape images by darkening skies and making them more dramatic. This workshop is suitable for photographers with some experience of using manual settings and shutter speeds. We will be exploring 'long exposure photography' so you can learn to blur water in rivers, waterfalls or even other types of movement by practising at home with a few exercise and techniques.

Mon 22nd March 2021, Post Production, Workshop 1 7.30pm – 8.30pm

This will take the form of a question and answer workshop. Week one is aimed at beginners to help you with basic contrast, exposure and simple colour grading using apps for Pads, phones, the Apple Mac Photos app, instagram effects. There are few simple apps out there to help improve your images for both the computer and pad or phone just ask come and along and see what will work for you.

Weds 24th March 2021, Q and A eve, 7.30pm – 8.30pm

The question and answer workshop will be for levels of photographers where you can ask about anything specific to outdoor photography. You may have been trying to achieve a certain type of image, or wondering which kit you need, best time of day to photograph or something unique to you, just join us with a question and learn something new.

Sat 27th March 2021, 9.30am-10.30am, iPhone and Phone Photography

Learn to unlock your phones creative abilities. Simple composition and lighting skills, control exposure and focusing, with an introduction in using the iPhones photo app and editing on Instagram.

Sat 27th March 2021 1100-1230, Outdoor photography for Beginners
